Engine Air Replacement Filters

for Mann+Hummel® NLG Air Cleaners

Mann+Hummel® is a registered trademark of Mann+Hummel GmbH

The New Standard

Superior performance and proven protection for heavy duty diesel engines

Donaldson's new line of high efficiency air filters may look a little different out of the box, but they're specially designed to fit Mann+Hummel® NLG air cleaner housings used in on-road applications.

This filter's unique sealing system incorporates specially designed teeth that compress to cushion and hold the filter in the ideal position, providing a secure seal – even in the most severe environments.

Packed with proven technology

Equipped with Donaldson's industry-shaping RadialSeal™ system, advanced media and stable structural support, these new air intake elements are built to perform and provide effective engine protection, in a wide-range of challenging conditions.

Old

New Appearance. New Design.

Donaldson invented air filters for heavy-duty engines – now it offers a new and improved heavy-duty design for NLG on-road air cleaners.

New

Advanced technology delivers complete engine protection

Vibration Resistant – Super-Tight Seal

Innovative Dual Compression tooth design

incorporates an inventive combination of soft and hard urethane that generates high levels of compression – maintaining secure RadialSeal integrity. Filter resists movement (even under heavy vibration) and delivers sure sealing under the most severe duty conditions.

RadialSeal™ design

Proven sure-fit Donaldson sealing system creates a reliable, vibration-resistant interface between the air cleaner and the filter. Slides easily on and off the outlet tube during servicing, making removal and replacement fast and simple.

Rigid structural support

Rigid structural support system (outer or inner liners) protect filters from damage or collapse in humid conditions or heavy vibration applications. Structure also protects the media from damage during servicing.

High-efficiency cellulose media

Offering media options specifically designed to perform across a wide range of heavy-duty diesel engine applications. **Flame-retardant media** in UL Recognized filter elements are available for transportation applications.

Donaldson Aftermarket Filter Warranty

YOU HAVE A CHOICE

You can always choose top-quality Donaldson filters designed specifically for your engines and equipment, and as long as you change the filters according to the engine manufacturer's recommendations Donaldson filters **will not** void your engine manufacturer's warranty.
